ACADEMIC APPOINTMENTS AND OTHER SIGNIFICANT WORK EXPERIENCE

2006 – Present

University Librarian

[McMaster University](#)

Hamilton, Ontario Canada

The University Librarian is responsible for managing all operations of the McMaster University Library and is a member of the Senior Management Team of the University. The McMaster University Library is comprised of three libraries including the Mills Library (Social Sciences/Humanities), the Innis Library (Business) and the Thode Library (Science/Engineering). The University Library also includes the William Ready Division of Archives and Special Collections. The combined collections of the libraries total more than 2 million books, 20,000 print and electronic journal titles, and an additional 30,000 e-resources. The library includes significant special collections as well. McMaster University Library is a member of [OCUL](#) (Ontario Council of University Libraries), [CARL](#) (Canadian Association of Research Libraries) and of [ARL](#) (Association of Research Libraries) and participates in a number of consortial projects including [CRKN](#) (Canadian Research Knowledge Network) and [COAHL](#) (Consortium of Ontario Academic Health Libraries) for digital content. McMaster Library is one of only 15 research libraries in Canada that is a member of [CARL](#) (Canadian Association of Research Libraries) and of [ARL](#) (Association of Research Libraries). The budget is more than \$15 million annually. Staffing currently stands at more than 110 full time employees.

2004 – 2006

Associate Dean,

[Wayne State University Library System](#)

Detroit, MI 48202

The Wayne State University Library System is comprised of five libraries including the Adamany Undergraduate Library, Science and Engineering Library, Purdy/Kresge Library (humanities/social sciences), Shiffman Medical Library, and the Arthur Neef Law Library. The Library System also includes Library Computing & Media Services (providing instructional technology support to more than 300 classrooms), University Orientation, an ALA-accredited Library and Information Science Program, and Library Administrative Services.

The Library System is committed to national leadership in the transition of library collections from print to electronic resources and excellence in digital delivery of services. Currently, the Library System ranks first among ARL institutions in the percentage of its materials budget spent on electronic resources. The Library System is also a leader within the state of Michigan in the development of digital library initiatives; implementation of new electronic resources and services (Serials Solutions, ILLIAD, etc); implementation of an institutional repository; and is an active participant in the new and growing statewide online catalog.

Reporting directly to the Dean, the Associate Dean provides senior level leadership and oversight for library system operations; leads the advancement of excellence in customer service and process improvement; works with the Dean to translate the library vision and mission through development of innovative approaches to library services based on sound data and judgment and that meet the needs of customers; supports the Dean in interacting productively with the University administration and campus support units to advance the library system's role in advancing the urban mission of the University; assists with strategic and annual planning processes, including the formulation of system-wide and departmental goals and objectives and associated policies and procedures; leads library marketing and public relations; coordinates external programs and outreach to the urban community; provides senior level oversight to LibQUAL+ and other assessment programs; assists in defining and articulating the library system's role in teaching and learning; leads library system efforts with development of the freshman experience.

2001 – 2004

Director, Library Computing and Media Services

[Wayne State University Library System](#)

Detroit, MI 48202

This managerial position reports to the Associate Dean of the University Library System and is a member of the Library Leadership Team, the principal administrative body of the Library System. The Director of Library Computing and Media Services is responsible for the general administration of five distinct units including the Computer Support Team, Digital Library Services, Media Services, User Support Services, and Web Development Team. The combined staffing of these five units includes include 26 full-time librarians, IT professionals, AV Technicians and other support staff. While administratively this position falls within the University Library System organizational structure, it has campus-wide responsibility for the technology associated with more than 300 general purpose classrooms and for approximately 1000 desktop computers in the campus' general purpose computing labs.

In general, my responsibilities include strategic planning; coordination of project planning; prioritization and goal setting for IT related projects; analysis and report writing; purchasing and approving purchases of IT related items; development of policies, procedures, and documentation; grant writing and administration; and evaluation of IT-related user services.

Specifically,

- **Media Services** leads the campus community in applications of classroom technology and media resources. Working collaboratively with campus partners including CIT, OTL, FP&M, Public Safety, S/C/Dø, and others, Media Services provides expertise and assistance in support of teaching, research, and service in over 300 different general purpose classrooms, auditoriums, lecture halls and meeting facilities; distance education and videoconferencing facilities; video production and post production services; visual and audio equipment rental; development and delivery of digital materials including streamed audio lectures; and presentation materials and support. Media Services also supports special events including the Board of Governors, Academic Senate, Commencement, and Convocation.
- **Computer Support Team (CST)** leads the campus community in the provision of general purpose computing facilities on campus. At Wayne State University the Library System is the only provider of general purpose computing facilities, including the only staffed 24-hour computing facility and the Advanced Computing stations for the colleges of Engineering and Liberal Arts & Science. The staff members on the CST provide support for more than 800 public computers, 200 staff computers and 30 servers within the Library System. CST interfaces and consults with peer technical specialists, administrators and unit heads, plans for and develops new user applications based on user need, answer user questions and resolves problems, develops and implements standards.
- **Digital Library Services** is primarily responsible for the Integrated Library System (currently Horizon but migrating to Innovative Interfaces Inc.). This team also works with campus partners to integrate the ILS and other services with Pipeline and Blackboard. The department is directly responsible for managing the integrated library system (Horizon) for the Wayne State University Library System (Adamany Undergraduate Library, Neef Law Library, Purdy/Kresge Library, Science and Engineering Library, Shiffman Medical Library, Oakland Center Library, Pharmacy LRC, Library and Information Science Program, UGE1000, and University Media Services). In addition, the following WSU departments also use our ILS: Skillman Center, Reuther Archives, and the Self-Instruction Center.
- **Web Development Team** is responsible for the management of the Library System's website (<http://www.lib.wayne.edu>), affiliated sites, and related resources. The Web Development Team facilitates the cooperative planning, implementation, and evaluation of content and applications for the Library System web site; the exchange of techniques and ideas relating to web development and design; the development of common goals for web site development; and the ongoing growth and refinement of the Library System's web site. In addition, the Web Development Team manages several partner websites including the Office for Teaching and Learning (<http://www.otl.wayne.edu/>); Detroit Community Aids Library (<http://www.lib.wayne.edu/dcal/>); Teaching, Learning and Technology Roundtable (<http://www.tltr.wayne.edu/>); and others. Staff members in this group are also responsible for creating, integrating, structuring, and ensuring access to digitized information services and resources that support teaching, learning, and research at WSU. Digital projects can be found

at <http://digital.lib.wayne.edu/>. This unit receives funding from a variety of services including several active grants (<http://www.lib.wayne.edu/geninfo/about/grants/>).

- **User Support Services (USS)** leads the campus community in providing the only 24-hour general purpose computing help desk. Located in the Undergraduate Library, the USS help desk is the first point of contact for all computer-related assistance. USS works collaboratively with faculty and campus partners to provide access to nearly 20 closed labs for instructional use including loading specialized applications based on faculty requests. Currently USS provides support for ADA-related technologies installed in libraries.

1998 – 2001

Assistant Director for Systems

[Wayne State University Library System](#)

Detroit, MI 48202

Note: My first position at WSU was as Assistant Director to Director. Since 1998 I have been progressively given more responsibilities. During 1998 ó 2001, I acted as Assistant Director for Systems which was primarily desktop support, web development, the ILS and a 24 hour help desk.

In addition, I was also responsible for providing support to the DALNET member institutions, including supervising the DALNET staff. These responsibilities continued until a permanent DALNET Director was hired. DALNET is the Detroit Area Library Network, a cooperative of more than 20 libraries in southeast Michigan.

1990 - 1998,

Head of Automation Services,

[Wright State University](#)

University Libraries

Colonel Glenn Highway

Dayton, Ohio

As a founding member of OhioLINK, Wright State University Library System was one of the first six institutions in Ohio to migrate to III. In this position I was actively involved in the development of OhioLINK from the earliest stages. Indeed, I was one of six Lead Implementors who were the first to design and implement the III system in Ohio.

Managed the integrated library system (OPAC, circulation, reserves, cataloging, acquisitions) for a cooperative consisting of the Wright State University Libraries (Paul L. Dunbar Library and Fordham Health Sciences Library), Educational Resource Center, Media Services, and Lake Campus. The cooperative also includes the following libraries in the Dayton metropolitan area: Children's Medical Center, Franciscan Medical Center, Good Samaritan Hospital, Grandview Medical Center, Kettering College of Medical Arts, Kettering Memorial Hospital, Miami Valley Hospital, Sycamore Medical Center, Veteran's Administration Medical Center. (The cooperative formerly included Dayton Art Institute, and the Dayton Museum of Natural History as well.)

Manage the Libraries' Information and Research Network ó LIBNET, one of the first networks of its kind to integrate into a single web-based system all electronic resources including the online catalog; OhioLINK; cdrom databases and a variety of Internet resources; electronic services such as requests for online reference assistance, interlibrary loans, and renewals; and full text subscriptions.

Act as liaison between the affiliated libraries, the University Libraries, University Computing Services, University Disability Services, OhioLINK, and software and hardware suppliers. Supervise 3 FTE staff and 3 Student Aides.

In addition, for approximately 6 months during the same period I provided direct support for OhioLINK on a part-time basis, loading the first four research databases into the OhioLINK central system. In my role as öInterim Systems Administratorö I worked with Len Simutis, OhioLINK Project Manager; Sandy Westall, III Vice-President; UMI, the database vendor; and the OhioLINK Lead Implementors group to design and implement access to the first four online research databases licensed by OhioLINK.

1986-1990

Automated Library Systems Office, Systems Support [Dayton Metro Library](#)

In this position I was primarily responsible for providing all levels of systems training and support for the main library and branches. Training and support included all aspects ranging from networking and desktop management to ILS administration.

Secondarily, during slow periods for the Systems Office, I worked in the Main Library Circulation department providing front line support to patrons. Towards the end of my career at Dayton Public Library I also worked as a substitute Reference Librarian.

SERVICE

International:

September 2006 - Member, SirsiDynix Academic Advisory Council
October 2007- Member, EDUCAUSE Advisory Committee on Teaching and Learning

National:

September 2006 - Member, American Library Association-Library Information
Technology Association (ALA-LITA)- Assessment working group
July 2006- Member, Association of Research Libraries
July 2006- Member, Canadian Association of Research Libraries (CARL)
July 2006 - Member, CARL E-Learning Working Group
July 2006 - Member, Allouette Canada, Funding Strategy committee
June 2004 - Member, ALA-LITA - Regional Institutes Planning Committee
June 2004 -2006 Member, ALA-LITA Library Hi-Tech Awards Committee (2004-
2005)

Chair, ALA-LITA Library Hi-Tech Awards Committee

(2005-2006)

June 2004 ó 2006 Grant Reviewer, U.S. Department of Education, Improving Literacy through School Libraries
April 1997 - June 1998 Chair, American Library Association, ALA-LITA Adaptive Technology Interest Group
July 1996 - June 1997 Coordinator, ALA-LITA Automation Product Review
July 1995 - June 1998 Member, American Library Association, ALA-LITA Bylaws Committee
July 1995 ó June 1998 Member, American Library Association, ALA-LITA Program Planning

State/Provincial:

July 2006- Member, Ontario Council of University Libraries (OCUL)
October 2004 ó 2006 Board Member, Michigan Library Consortium
July 1997 - March 1998 Chair, OARnet (Ohio Academic Research Network) Resource Advisory Council
July 1995 - 1997 Vice-Chair, OARnet Resource Advisory Council
April 1991 - 1993 Member, OhioLINK Lead Implementors

University:

July 2006 - Member, Senior Management Team, McMaster University
July 2006 - Member, University Technology Committee, McMaster University
September 2006 - Member, Honours Research Science
October 2004 ó 2006 Member, Wayne State University (WSU) Associate Deans Committee
October 2004 ó 2006 Member, WSU NCA Review Subcommittee
September 2003 ó 2006 Member, WSU Faculty Technology Support Center Committee
August 2002-2006 Member, WSU Teaching, Learning, Technology Roundtable
May 2003 ó 2006 Chair, WSU Advanced Computing Advisory Committee
March 1998 - 2000 Member, Wayne State University Y2K committee
January 1997 - March 1998 Member, Wright State University Diversity Awareness Committee
April 1995 - March 1998 Member, Wright State University Information Technology Planning Committee
January 1994 - March 1998 Member, Wright State University CWIS Task Force
1994/1995 Member, Campus Climate Committee
June 1993 - 1994 Member, Wright State University Student Mentoring Program
December 1992 -1993 Member, University Librarian Review Committee

TEACHING EXPERIENCE AND PRESENTATIONS

Classroom Teaching

Adjunct Faculty, Wayne State University, College of Education, IT5110/LIS6360 Technology Applications in Education and Training
Winter 2006

Presentations

- November 14, 1996 Co-presenter with Kathi Herick, OhioLINK (via CU-SEEME conference), "How to install and use your OhioLINK web OPAC"
- September 20, 1996 Co-presenter with Sheila Shellabarger, OHIONET Annual Program, "Using Netscape to Organize and Access Electronic Resources"
- May 6, 1994 Presenter, Ohio Two-Year College LRC Conference - "How OhioLINK Will Change Your Life"
- May 14, 1993 Presenter, OHIONET Annual Program - "Electronic Publishing and the Internet"
- Oct/Nov 1993 Presenter, SOASIS - "Navigating the Superhighway"
- June 14, 1991 Presenter, ALAO Spring meeting, "Reaching a Higher Plane- a panel discussion on OhioLINK and how it will affect us"

Local:

- March 8, 2006 Presenter, Wayne State University Grant Writing Workshop, "Building Successful Collaborations"
- May 6, 2005 Presenter, Wayne State University Writing and Publishing Workshop, "Digital Presentations and Publications"
- May 5, 2004 Chair, WSU 2004 Technology Expo
- March 6, 2003 Vendor Coordinator, PDA Fair
- March 6, 2003 Panelist "Peer Reviewed Presentation at Teaching and Learning with Technology Roundtable" "Collaborative Approach to Creating Digital Instructional Materials"
- May 19, 1997 Featured Speaker - Dayton Advocates for Computing Women,

October 24, 1996	"Computing Resources on the Web" Featured Speaker - SOCHE Education/Communication Committee, "The Great Library Home Show: Elements of a Library Homepage"
May 23, 1995	Presenter, Miami Valley Association of Health Sciences Librarians - "The Internet and Accessing Medical Resources"
May 18, 1995	Presenter, Greater Dayton Chapter of ACM - "Using the Internet to Access Computing Resources"
May 1, 1995	Panelist, SOCHE Faculty Retreat - "Using the Internet to Enhance Teaching and Learning"
January 13, 1994	Presenter, WAUW Luncheon - "Women's Resources on the Internet"
November 23, 1993	Trainer, LEXIS-NEXIS - "Accessing Resources on the Internet"
May 24, 1991	Presenter, Lake Campus Library Conference, "What OhioLINK will do for you"

GRANTS AND SPONSORED PROJECTS (More than \$2m US Federal Funding to date)

National:

PENDING - 2007 IMLS ó Digital Russell ó PI: David Blitz, Central Connecticut State University ó advisor to the grant proposal. Proposal in review process at IMLS

2006 IMLS ó Recruiting and Educating the 21st Century Fine and Performing Arts Librarian ó Co-Principal Investigator (PI) with Dr. Joseph Mika - **\$851,018** to provide stipends and tuition waivers for 12 students from under represented groups to enter the LIS program and become "fine and performing arts" librarians. Collaboration with the Detroit Institute of Arts, Michigan Opera and Detroit Symphony Orchestra

2004 Center for Academic Transformation/Roadmap to Redesign ó Co-Principal Investigator with Dr. Sandra Yee, Dr. Patty Bonesteel ó Accepted into a nationally recognized program for re-inventing core courses (from face-to-face to computer-based).

http://center.rpi.edu/R2R/R2R_ProjDiscipline.html

2004 IMLS ó Recruiting and Educating the 21st Century Librarian ó Co-Principal Investigator (PI) with Dr. Joseph Mika - **\$743,286** to provide stipends and tuition waivers for 20 students from under represented groups to enter the LIS program and become "digital librarians". One of only 26 grants awarded nationally and the only award in Michigan.

http://www.lib.wayne.edu/geninfo/about/grants/21_century_librarian/

2004 Sun Academic Excellence Grant ó Principal Investigator - **\$31,999** for servers to house "Digital Instructional Materials"

2003 IMLS ó National Leadership Grant ó Principal Investigator (PI) **\$249,433** to create a digital repository of 5,000 images of historic clothing from the collections of the Detroit Historical Museum, The Henry Ford, and Meadow Brook Hall. One of only 16 grants awarded nationally and the only award in Michigan.

<http://www.lib.wayne.edu/geninfo/units/lcms/dls/grants/ddgrant.php>

2002 IMLS ó National Leadership Grant - **\$110,000** to digitize 15,000 images from the *Detroit News* photographic archive. Co-PI with Mike Smith from the Reuther Archives.

<http://dlxs.lib.wayne.edu/cgi/i/image/image-idx?c=vmc;page=index>

2002 IMLS - **\$495,000** to establish regional digitization centers in the state of Michigan. Project Coordinator for the project. <http://mmm.lib.msu.edu/>
